PROJECTS

Charity Connect

- Charity Connect is a web application developed using Next.js and Supabase that links donors with trusts by sharing donor details via email, making giving easier and more impactful.

ToDo-List

- It is a web app built with HTML, CSS, and JavaScript, featuring task management and a customizable theme changer for a personalized user experience.

Easy Canteen

- A full-stack canteen order management application built with the MERN stack, where users can create orders with dynamic pricing and receive unique order numbers for easy retrieval.

INTERSHIPS AND WORKSHOPS

Warmy Solutions

26th Dec 2023 - 13th Jan 2024

During my 20-day internship as a front-end web developer, I gained extensive knowledge and developed a strong interest in web development.

Imarticus Learning

12th Jun 2023 - 16th Jun 2023

Participated in a 7-day workshop in MERN stack development, gained valuable insights and hands-on experience. This intensive learning opportunity significantly enhanced my skills.
